Dear Sir,

I just received your letter No.Fl.248/G.F.289-19-15 dated the 13th July 1920 asking me to give you an estimate of the amounts which Co-operative Societies may be expected to subscribe to the loan of Rs.100 lakhs.

I am afraid I can give you no idea whatever, but I think that it will be possible in course of time to expect about a lakh and a half. I shall give you more accurate estimates after I have heard from the more -- important Societies to which I have made a reference -- to-day.

Yours sincerely,

My dear Sir,

In connection with the investment of the reserve funds of Cooperative Societies in the War Loan and also of investments by Societies on their members' land I find that they desire to transfer some of their fixed deposits in to the loan. These deposits are made mostly

in the Mysore Bank, the
Central Coorge Bank, or
the Provincial Coorge Bank
and though some of them
may mature before the end of
September next, the rest mature
only three to eight months hence.
In these circumstances, will all
the Concessions attaching to the
Loan be extended to these
depositors if they authorise
the investment of their deposits
in the Loan on their maturity.

G.R.S. III—3].

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

It may perhaps be necessary to fix a time limit beyond which the concession will not apply. I would recommend that the time may be fixed at the end of June 1921, so that all deposits making before that period and intimation of the investment of which is given before the end of September next – unless their time is also extended – will be entitled to this concession

Yours Sincerely

R. Rangachari

13th August 20.

Dear Sir,

Your D.O.No.75 of yesterday. Government will accept fixed deposit receipts of the kind you refer to, as subscription to the loan. In the case of deposits in the Bank of Mysore, the procedure has been much simplified and the depositors have only to advise the Bank of their intention to transfer their holding into the loan. The Bank has agreed to allow interest up to the date of transfer at the rates at which deposits have been accepted. You will see that under this arrangement, the depositors will be put to no loss or inconvenience. On the other hand they will be distinct gainers as from the date of transfer of their holding into the loan they will begin to earn interest at Rs.6¼ free from Income Tax for an investment of Rs.99 instead of at 5½% which, I believe, are the rates the Bank of Mysore allows on fixed deposits.

As regards deposits in the Central and Provincial Co-operative Banks, I do not know if it is not possible for them to adopt an arrangement similar to that allowed by the Bank of Mysore. If there is any objection or inconvenience in doing so, there should be no objection to follow the procedure adopted in regard to deposits in the Bank of Madras, Bangalore. This Bank has agreed to hand over to Government on the dates of maturity the amounts deposited with it on the authority of depositors to be communicated to it. I would invite reference in this connection to the circular issued by the Comptroller appearing in yesterday's issue of the Mysore Gazette. pages 798-799, Part IV.

The transfer of fixed deposits can, as stated above, be easily made and the investors will obtain all the advantages which the loan offers. Their fixed deposit receipts will be accepted at par and interest allowed on the deposits by the Banks concerned to date of transfer will also be available for

for investment.

I have addressed you officially for an estimate, however rough, of the amount that may be expected to be subscribed by the Co-operative Societies and I shall be much obliged for any forecast you can give me.

The arrangements under the scheme under this arrangement Government propose to take over

Yours sincerely,

Sd. M. N. Krishna Rao.

Dated, Bangalore 14/15th August 1920.

My dear Sir,

Thank you for your D.O. letter No.118 of yesterday. The arrangements proposed by you as regards the acceptance of fixed deposits are very satisfactory and in fact the terms are even more favourable than what I had suggested. I am consulting the Central and the Provincial Banks if they will follow the procedure of the Mysore Bank or the Madras Bank with regard to fixed deposits.

As regards an estimate of the amount that may be expected to be subscribed by or through Co-operative Societies in the Mysore Loan I said at the meeting held by the Dewan the other day that I expected investments up to about eight to ten lakhs. The Societies have, I am glad to say,

responded

responded to my request very promptly and up-to-date I have had promises to the extent of well over two lakhs and a half. All this amount, I need scarcely add, has not yet been paid into the Treasuries but will soon be.

I fear, however, that it is not possible for me to promise that I can work up to the estimate I have given above before the end of September. Before that date the utmost that I expect will be about five lakhs.

My dear Sir,

All payments by or through Co-operative Societies towards the Mysore State Loan are made into one or the other of the Government Treasuries in the State or into the Mysore Bank. I will keep you informed from time to time of the extent to which this is done. But as these amounts will be included in the returns which you get from the treasuries and the Bank, it is possible that these items may be counted twice over. I write this therefore to prevent such a mistake. It will perhaps be useful if instructions are issued that amounts received through Co-operative Societies may be separately shown.

May I know what is the amount likely to be subscribed by the Societies. If it is a small amount, it may not be worth while to allow commission on it.

My letter of yesterday will have given you a rough idea of the amount that may be expected to be subscribed by or through Co-operative Societies.

I may point out that as regards the bulk of these amounts, the Banks or the Taluk agencies have nothing to do, except to receive payments. The canvassing, such as there is, will have been done by my departmental officers or by the Managing Committees of Societies. I am asking nothing for my departmental officers nor even for the Directors, but for the Societies as a whole. I do not think that there can be any possible objection to let them have the Commission.

Dear Sir,

May I know what response has been secured from Co-operative Societies to the loan now on offer? All the points raised by you having been settled, I hope your estimate of subscription by the Societies will be realised.

Dear Sir,

I received your D.O. Letter No.155 dated 8th September 1920 four days ago. I am sorry that on account of my illness I was not able to send a reply earlier.

The total amount invested by Co-operative Societies in the Mysore State Loan is Rs 4,00,000/-. I believe about a lakh more will be invested during the current month.

The bigger societies have all been dealt with and we are now taking up smaller ones. I can assure you that every attempt will be made to reach the estimate I gave of the amount likely to be invested by Co-operative Societies.

Yours Sincerely,

R. Rangarao

Dear Sir,

Thanks for your D.O.No.193 dated 2nd October 1920. The applications that have been received after 30th September last are only for small sums and it does not seem to be worth-while to obtain orders of Government regarding them. If any application for investment of a large amount is received I shall write to you about it.

Yours Sincerely,
